TO WHOM IT MAY CONCERN:

Lanca Contracting Limited recently completed a multi-million dollar industrial/commercial condominium project for my companies (Haggerty Bros. Construction Inc. and Lauderdale Developments Inc.) on Roy Blvd. in Brantford.

Initially, Lanca was contracted only for the first building phase but once that contract was completed, I was both satisfied and enthused enough to immediately award them the second building of this development. Being in the construction industry myself, you can imagine the scrutiny and pressure to perform that Lanca has faced in bringing this project from concept design to finished product.

Lanca has been a long-standing and significant contributor to the Brantford business community and continues to operate in the family tradition as a reputable, accomplished and highly adaptive designer/builder of projects of various sizes and complexity. Their company will definitely be considered first for any future projects we may have.

Sincerely,

HAGGERTY BROS. CONSTRUCTION INC.

James Patrick Haggerty
