TO WHOM IT MAY CONCERN:

Lanca Contracting was selected to build our new plant and office facilities last year.

The building consisted of a Robertson Pre-Engineered building that was fully designed for 5 ton crane bays.

Building construction was timely and met with all scheduled completion dates. Lanca worked well with us to meet our requirements and we were satisfied with the general terms of the agreement.

Sincerely,

Shawn V. Fowler  
Executive VP  
Fowler Metal Industries Ltd.
