To Whom it May Concern,

Lanca Contracting has completed a number of projects for the City of Brantford in the last few years. The scope of work has varied from relatively small projects to complete demolition, and total reconstruction work on a National Historic Structure.

I have always been pleased with Lanca's attention to detail, as well as their ability to communicate, advise and resolve construction issues as they arise, without negatively impacting the construction schedule. Lanca Contracting uses reputable sub-contractors, and provides excellent supervision and coordination between the various trades on site.

I will definitely invite Lanca Contracting to bid on future projects in the City of Brantford and would not hesitate to recommend them.

Sincerely,

Egon Otten
Coordinator of Parks Services
